

XYRUS JOHN P. VERTUCIO

Quezon City, PH | P: 09702695486 | xyrsjhn@gmail.com | <https://www.linkedin.com/in/xyrusvertucio/>

Computer Engineering graduate with hands-on experience building full-stack web applications and native Android apps in a professional internship setting. Proficient in React, Node.js, Kotlin, and Python, with additional exposure to embedded systems and IoT development. Seeking a junior software engineering role where I can contribute to real-world product development from day one.

EDUCATION

BESTLINK COLLEGE OF THE PHILIPPINES

Bachelor of Science in Computer Engineering

Quezon City, PH

2022 - 2026

- **Relevant Courses:** Data structure & Algorithm, Object-Oriented Programming, Software Development

EXPERIENCE

SYSU INTERNATIONAL INC.

Software Engineer Intern

Quezon City, PH

Jan 2026 - March 2026

- Built and deployed **SYSU Centralized Management System**, a full-stack web application integrating live **SAP data** (shipment numbers, delivery addresses, and driver status) to centralize real-time monitoring of 100+ vehicles and drivers across fleet operations.
- Developed **SYSU Go**, a native Android driver app (Kotlin) for 100+ drivers integrated with the Centralized Management System, featuring a real-time GPS tracking and live status updates (Loading → On Route → Delivered) via a high-performance Node.js backend using socket.io.

UNIVERSITY PROJECTS

THESIS DEVELOPER – SMART BUILDING TECHNOLOGY

2025 - 2026

- Engineered a Smart Building System with 4 floors using Raspberry Pi and Arduino, integrated with sensors (flame, gas, ADXL345, DHT11, ACS712) across 6 motors per floor for real-time monitoring and automated environmental control.
- Architected a full-stack MERN web application with React dashboard for live sensor visualization and remote system control across the entire building.

FACE RECOGNITION ATTENDANCE SYSTEM

2025

- Implemented a Face Recognition Attendance System using Python, OpenCV, and Raspberry Pi, designed to accurately track and manage up to 50+ students per room in real time, marking attendance when facial confidence reaches 70% or above.

ACTIVITIES

INSTITUTE OF COMPUTER ENGINEERS OF THE PHILIPPINES - STUDENT EDITION – NCR – REPRESENTATIVE

2025 - 2026

- Represented Bestlink College at the NCR level for ICpEP.SE, collaborating with representatives from multiple universities across the region.

CHAIRMAN - ASSOCIATION OF COMPUTER ENGINEERING STUDENTS (ACES)

2025 - 2026

- Coordinated and managed major school events including Foundation Day, Mr. & Ms. Computer Engineering, and Sports Fest, coordinating committees, logistics, and 100+ student participants per event.

CLASS MAYOR – BSCPE

2023 - 2024

- Acted as liaison between 40+ students and faculty, coordinating class concerns and schedules.

TECHNICAL SKILLS

Languages: JavaScript, Kotlin, C/C++, Python, SQL, HTML, CSS

Framework & Library: React, Node.js, Socket.io, Express, OpenCV, FastAPI, Django

AI & Emerging Tech: Ollama, Gemma 4, Open AI, Claude, Claude Code

Database: MySQL, MongoDB, Supabase

Tools & Platform: Git/GitHub, VSCode, UI/UX Design (Figma), Android Studio, Blender

Hardware & Design: Hardware Troubleshooting, Circuit Design, PCB Design, 3D Design, Sketch Up
